SUMMARY

Motivated and detail-oriented final year Information Management System student with a strong foundation in web development, database management, and digital content systems. Experienced in real-world environments through part-time roles in customer service and freelance web content work. Proficient in tools such as WordPress and Microsoft Excel, with hands-on skills in HTML, CSS, and SQL. Known for strong teamwork, adaptability, and communication skills, with a proven ability to manage tasks efficiently and contribute effectively in both technical and customer-facing roles. Currently seeking an internship from 1st Sept 2025 until 15th February 2026 to apply and expand technical expertise in a practical, team-based setting.
